

## TrakRack Acquires Garage Outfitters

Austin, Texas, September 1, 2006—*TrakRack, Incorporated, a division of Framework Innovations, dedicated to designing and distributing unique products through imaginative engineering, recently announced the acquisition of Garage Outfitters, makers of the patented Garage Ceiling Storage Shelf.*

TrakRack products are built for strength and durability, are competitively priced and offer a versatile design. The hallmark of the TrakRack system is the horizontal rail that serves as the only piece actually installed into the wall. The vertical rails slide along the horizontal for best positioning. Verticals require no hardware meaning no need to put any other holes down the wall face.

## Make Garage Clutter Disappear

**Lifetime Shelving & Storage  
For Work & Home**

## It's Time To Get Organized

TrakRack's addition of the Garage Ceiling Storage Shelf to our product family has our customers amazed at how many items fit on the fully adjustable shelves freeing their garages of clutter and restoring order throughout.

- Quality industrial construction with weight capacity of 250 pounds.
- Extra large capacity shelf 3'5" x 4'
- Shelf height easily adjust every one inch to a maximum of 28 inches from the ceiling
- Raised shelf edge helps prevent items from falling
- Installed into the ceiling joists in the garage
- Can be installed in space between garage door (in the up position) and the ceiling, along the back wall or down the sides of any residential garage
- Maximize usable square footage in the garage
- Smart, affordable garage storage for the homeowner

## Easy to Install

The Garage Ceiling Storage Shelf can be easily installed by a homeowner or through our professional installers. The shelf comes with all hardware and a complete set of instructions for assembly and installation. Your garage ceiling can become a second story of storage when multiple units are installed.

## Fully Adjustable

No matter what your ceiling height, the Garage Ceiling Storage Shelf can accommodate. The shelf height is easily adjustable every inch to a maximum of 28 inches from the ceiling

## Everything In Clear View

With the Garage Ceiling Storage Shelf you can easily see what you have stored and can access the items from four different directions, eliminating the time consuming shuffling.

- Christmas Decorations
- Toys & Sports Equipment
- Chairs & Patio Cushions
- Coolers
- Power Tools
- Paint Cans & Chemicals

Great for storing materials that could be harmful to children such as sharp gardening tools and household chemicals. Each shelf holds up to 250 pounds and items are in clear view for easy accessibility.
